Cloud Computing For Your Business

No More Barriers or Borders

Harness the power of the cloud on your terms. Whether you build your own private cloud to observe SEC or HIPPA compliance, or opt for a public cloud solution, Impact Solutions gives you the flexibility to control to set your own course. Pool computing resources, automate management, and improve scalability, provisioning, and agility.

Application & Infrastructure Flexibility

Are you out of disk or physical space in your data center? Have your applications outgrown the infrastructure? Impact Solution's cloud computer services allows your business the flexibility to instantaneously change technical strategies with fixed costs.

Own Less, Pay Less, Do More

Your staff needs to stay connected and you need to maintain security and control. So why not have both? Make productivity easier by giving everyone endless ways to work and collaborate from anywhere at any time and on any device. In the cloud you make the rules.

Built-in Redundancy & Availability

Our cloud services, from Hosted Microsoft Exchange, Off-Site Backup and Network Monitoring include guaranteed 99.999% uptime and availability to ensure your business remains connected and productive.

Additional Services: Managed IT Services, Disaster Recovery, Network Monitoring, Virtualization, Hosted Exchange Email, Spam Protection, Desktop Support, Server Support, Wiring & Cabling, Anti-Virus Protection, Free Assessments
